

Pelvic ULefttrasound - Image Protocol

Transabdominal and Transvaginal Approach

1. Long uterus ML
2. Long uterus ML with length and AP measurements
3. Long uterus ML with endometrial measurement
4. Long cervix/cul-de-sac
5. Long uterus RIGHT
6. Long uterus LEFT
7. Transverse uterus at fundus level
8. Transverse uterus at fundus level with width measurement
9. Transverse uterus body
10. Transverse cervix/cul-de-sac
11. Transverse vagina *(transabdominal only)
12. Transverse RIGHT ovary
13. Transverse RIGHT ovary with width measurement
14. Transverse RIGHT ovary with color Doppler
15. Transverse RIGHT ovary inferior pole
16. Transverse RIGHT ovary superior pole
17. Long RIGHT ovary
18. Long RIGHT ovary with length and AP measurements
19. Long RIGHT ovary medial
20. Long RIGHT ovary lateral
21. Long RIGHT Adnexa
22. Transverse LEFT ovary
23. Transverse LEFT ovary with width measurement
24. Transverse LEFT ovary with color Doppler
25. Transverse LEFT ovary inferior pole
26. Transverse LEFT ovary superior pole
27. Long LEFT ovary
28. Long LEFT ovary with length and AP measurements
29. Long LEFT ovary medial
30. Long LEFT ovary lateral
31. Long LEFT Adnexa

Repeat Images on Transvaginal Approach (*with the exception of step #11)
